Work with Greg Pekarsky.

I previously went with several other companies and I can't tell you the number of times they did NOT respect my budget. I gave you a specific number. Do NOT bring me to an apartment and give me the, "Well, this is \$100 or \$200 more... BUT, it comes with this perk..." talk. Why did you take me here, seriously? Oh, and there was one man who couldn't be bothered finding proper parking, so he put his flashers on in some illegal spot and rushed me through the entire apartment viewing. Really?

Greg helped me find the perfect apartment; not only did it fit my budget, it came with everything I asked for: heat included, less than 2 blocks from the L, pool, et cetera.

Homescout is great. Their listings are far superior and the agent I worked with was respectful and fantastic to deal with. Go with Homescout!

We have used Cats & Dogs in the past, beginning when it was just Cats. Our usual vet was not available when our little cat Frenchy, took a turn for the worse in his battle with a then-unknown disease. We took Frenchy to Dr. Perrault for a consultation. He was more than helpful and we looked at the possibilities.

We scheduled an ultrasound for the next day and it turned out to most likely be incurable. Dr. Perrault went over everything with me in understandable, but condescending, terms. We made the decision to have Frenchy euthanized.

It still hurts, but Dr. Perrault and his staff made the process much easier and helped me to come to the decision based on good evidence, fully explaining everything that was possible. And he had some very good words that give me strength now.

Then today in the mail we got a sympathy card, signed by all of the staff with personal messages.

This is one very special place with very special people. I highly recommend it to anyone--and hope that your need for Dr. Perrault is much happier than mine was.
